

Equipment List

EDM:

- 1.) SODICK WIRE EDM, model A-325, fully submersible with auto threading, x-y-z travel 13.7" x 9.8" x 8.6"
- 2.) SODICK DIE SINKER VERTICAL EDM, model PE-350, x-y-z travel 16" x 12" x 10", table to platen (max) 28", tank size 47" x 32" x 19".

MILLING:

- 1.) MAZAK VERTICAL MACHINING CENTER, model VTC-16B with Mazatrol M-Plus CNC control, table size 57.48" x 16.14", x-y-z travel 44.09" x 16.14" x 20.08".
- 2.) BRIDGEPORT Series I EZ-TRAK SK48" 2 axis milling machine with CNC controller.
- 3.) SHIZUOKA 3 axis milling machine with Shadow NC controller.
- 4.) SHARP model LC 1 1/2 TM manual milling machine.

TURNING:

- 1.) MAZAK CNC Turning Center, model SQT 15MS with T-Plus Controller, live tooling and SMW bar feed. Maximum Swing -20.91", maximum machining diameter 11.75", maximum bar work diameter 2.0".
- 2.) Two - Whacheon manual lathes.

MISCELLANEOUS:

- 1.) CINCINNATI/GILBERT, Radial Drill Press.
- 2.) MANLEY 60 Ton H-frame press.
- 3.) BRIDGEPORT Surface Grinder.

EQUIPMENT LIST - INJECTION MOLDING

- 1.) TOSHIBA - 250 Ton Injection Molding Machine.
- 2.) PROMAX - 165 Ton, Injection Molding Machine.
- 3.) PROMAX - 110 Ton, Injection Molding Machine.
- 4.) ARBURG - 30 Ton, Injection Molding Machines - 2 each
- 5.) Associated support equipment for injection molding.

At Maximum Machine We Offer:

- General Machine Work
- EDM: Wire/Die Sinker
- CNC Lathe & Machining Centers
- Complete In House CAD/CAM Processing
- Mold Design To Finished Products
- Product Engineering and Development
- Custom Injection Molding
 - Small and Large Runs

All In One Extended Facility!

We're Your Mold Maker and Your Injection Molder!

Have You Ever Been Caught Between
Your Injection Molder and Your Mold Maker?

**For Quote Information Call 801.282.4127 or FAX 801.282.4324
E-MAIL TMAXIMUM100@AOL.COM**

Is A Machine/Mold Shop With The Primary Focus On **The Design And Manufacture Of Injection Molds**. We Also Specialize In Tool And Die, **EDM Work**, And Production Jobs Both **CNC Mill** And **Lathe**.

GENERAL MACHINE WORK AND MORE

- With **CAD/CAM** Software We're Able To Do Complete In House Processing.
- Our Fully Submersible, Auto Threading **Wire EDM** Allows Us To Run Accurate Complete Production Jobs Around The Clock.
- Our **Die Sinker EDM** Allows Us To Burn The Mold Cavities In House.
- **CNC Precision Lathe** And **Mill** Equipment To Complete Your Production Jobs.

**Fully Equipped Machine Shop
With Experienced Tool Makers.**

Through Our Affiliate, **Ultamax**, We Provide Injection Molding Capabilities And Manufacture Plastic Parts. These Diverse Capabilities Allow Us To Generate Prototypes From Customer Concepts, Formulate Part And Mold Design And Drawings, Process This Information Through A CAD/CAM System, And Manufacture A Complete Mold. Finally We Can Run The Mold To Produce Finished Parts.

CUSTOM PLASTIC PRODUCTION

- State Of The Art Injection **Molding Equipment** Is Located In The **Same Facility** As The **Machine Shop**.
- 30 Ton to 250 Ton Injection Molding Machines.
- You Bring The Idea, We'll Give You The **Finished Product**.

**High Quality Plastic Injection With
Commitment To Meet Deadlines.**

We Make The Mold, Maintain The Mold, Run The Mold, All Of Which Results In Less Downtime, Higher Productivity, And Dollars In Your Pocket!
